AGREEMENT ON THE INTERNATIONAL DOLPHIN CONSERVATION PROGRAM

32ND MEETING OF THE PARTIES

La Jolla, California (USA) 20 October 2015

DOCUMENT MOP-32 INF-A VESSEL ASSESSMENTS

On multiple occasions, the Secretariat has requested an increase in the vessel assessment rate from US\$14.95 per cubic meter (m³) of well volume (unchanged since 2006) to US\$ 17.61/m³, which it considers would be sufficient to fund the AIDCP program. Section 5.5.2 of Document MOP-29-06 on the AIDCP budget, prepared for the 29th Meeting of the Parties in July 2014, described an alternative approach of linking the assessment rate to the amount of the budget approved by the Parties. The Parties requested that the Secretariat provide a sample calculation demonstrating how this would work in practice. Document MOP-30 INF-B, presented at the 30th Meeting of the Parties in October 2014. showed how this approach would work. However, no consensus was reached on a decision on the proposed methodology.

At the 31st Meeting of the Parties in June 2015, after a long discussion, it was once more agreed to defer the matter until the following meeting. The Parties again asked the Secretariat to continue the work from the previous meeting aimed at increasing the vessel assessment rate in order to cover the approved budgets.

Document MOP-31-06, prepared for the 31^{st} Meeting of the Parties, provides the necessary information to continue with the discussions at this 32^{nd} meeting. Table 1 is an updated version of Table 4 of that document, and reflects extraordinary income received from a vessel in September 2015. Table 2 details those vessels currently in arrears.
