

SAC-07-07d  
**RESEARCH PROJECTS WITH SOME  
EXTRA-BUDGETARY FUNDING**

7<sup>a</sup> Reunión del Comité Científico Asesor  
7<sup>th</sup> Meeting of the Scientific Advisory Committee

## RESEARCH

The information in this document is largely extracted from Document SAC-07-07<sup>a</sup>, ***Staff activities and research plans***. It describes the current situation regarding certain aspects of the staff's research, data management, and outreach activities, and outlines future activities and planned improvements for research that are partially funded from sources outside the Commission's regular budget.

- **CAPAM stock assessment methodology workshop series**
- **Dorado stock assessment.**

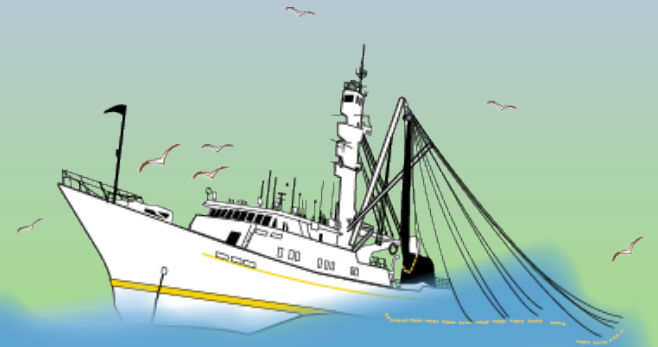

**SIMULATION TESTING OF REFERENCE POINTS** This work will start in June 2016, and the results will be presented at the Scientific Advisory Committee (SAC) meeting in 2017. The main focus of the project is to test the recently adopted interim target reference points (TRP) and limit reference points
