

**INTERNATIONAL DOLPHIN CONSERVATION PROGRAM  
PERMANENT WORKING GROUP ON TUNA TRACKING**

**47<sup>TH</sup> MEETING**

**Phoenix, Arizona (USA)  
25 July 2022**

**DOCUMENT TT-47-01 REV**

**MATTERS RELATED TO THE TUNA TRACKING AND DOLPHIN SAFE  
CERTIFICATION PROGRAMS**

This report provides information regarding the submission of Tuna Tracking Forms (TTFs) to the Secretariat as well as comparisons of dolphin safe certificates and their corresponding TTFs for trips that ended from 26 August 2021 through 25 May 2022. It also includes an overview of the historical rates of compliance of TTF submissions to the Secretariat since 2012.

**1. SUMMARY OF THE DOLPHIN SAFE CERTIFICATION PROGRAM**

The [\*Procedures for AIDCP dolphin safe tuna certification\*](#) establish the following criteria for issuing dolphin safe certificates:

1. The certificate is signed by a competent national authority whose signature is recognized by the Secretariat.
2. The certificate references a valid TTF (or TTFs) for dolphin safe tuna.
3. Tuna caught by vessels with DMLs is eligible for dolphin safe certification only if the fishing captain is on the AIDCP List of Qualified Captains.
4. The competent national authority issuing the certificate has a tuna tracking system consistent with the AIDCP.

The Secretariat applies the following guidelines for queries about the authenticity of any dolphin safe certificate:

1. The Secretariat responds to questions about specific certificates from potential importing states or companies only.
2. If the certificate meets the four requirements above, the response is that the certificate is valid.
3. If the Secretariat does not have the information it needs to verify 1 or 2 above, it first asks the competent national authority to provide the information before replying.
4. Otherwise, the Secretariat replies that the certificate is not valid.
5. No other information is provided about the contents of the TTF.

**2. ORIGINAL TTFs RECEIVED BY THE SECRETARIAT**

[Table 1](#) reflects compliance by national authorities with the deadline for the submission of TTFs to the Secretariat, established in the System for Tracking and Verifying Tuna (STVT), as amended in June 2015, which states that *“Within ten days of receipt of a TTF, the competent national authority shall transmit an electronic copy of the TTF to the Secretariat. The original TTFs received during a calendar month shall be transmitted to the Secretariat by the competent national authority at the latest 15 days after the end of that month”*.

As indicated in the ‘Trips’ column in Table 1, the Secretariat has received 530 original TTFs or electronic copies from the 539 trips with a completed TTF and that concluded between 26 August 2021 and 25 May 2022. For reference, [Table 1](#) also shows the corresponding percentages presented at the Working Group’s previous three meetings (44 through 46).

[Table 2](#) shows the total number and historical percentages of original TTFs received by the Secretariat since 2012. The percentages in this table reflect the deadlines originally established by the System and only include original TTFs received within those timeframes and not late.

### **3. COPIES OF DOLPHIN-SAFE CERTIFICATES RECEIVED BY THE SECRETARIAT**

Between 26 August 2021 and 15 July 2022, the Secretariat received 633 copies of dolphin-safe certificates, corresponding to 309 TTFs completed during 309 fishing trips. Of the certificates received, 610 certificates were considered valid and 23 certificates were voided by the national authority. [Figure 1](#) shows the comparison of estimated weights, as recorded by observers on the TTF-A<sup>1</sup>, and the recorded scale weight for each TTF included in the 610 valid certificates. The certified tonnage (197,797 t) represents 49.6% of the total of 399,161 t recorded as *dolphin-safe* on the TTFs of the 539 trips completed during the reporting period.

According to the [Procedures for AIDCP Dolphin Safe Tuna Certification](#), the national authority is notified of cases where the scale weight recorded for each TTF included in the dolphin safe certificates exceeds the estimated weight recorded by the observer in the TTF by 10% or more. In two of the 309 completed TTFs, the certified weight exceeded the estimate in the corresponding TTF by 10%. The Secretariat notified the corresponding national authority of this issue.

---

<sup>1</sup> Dolphin-safe tuna is recorded on the TTF-A, and non dolphin-safe tuna on the TTF-B.

#### 4. TABLES AND FIGURES

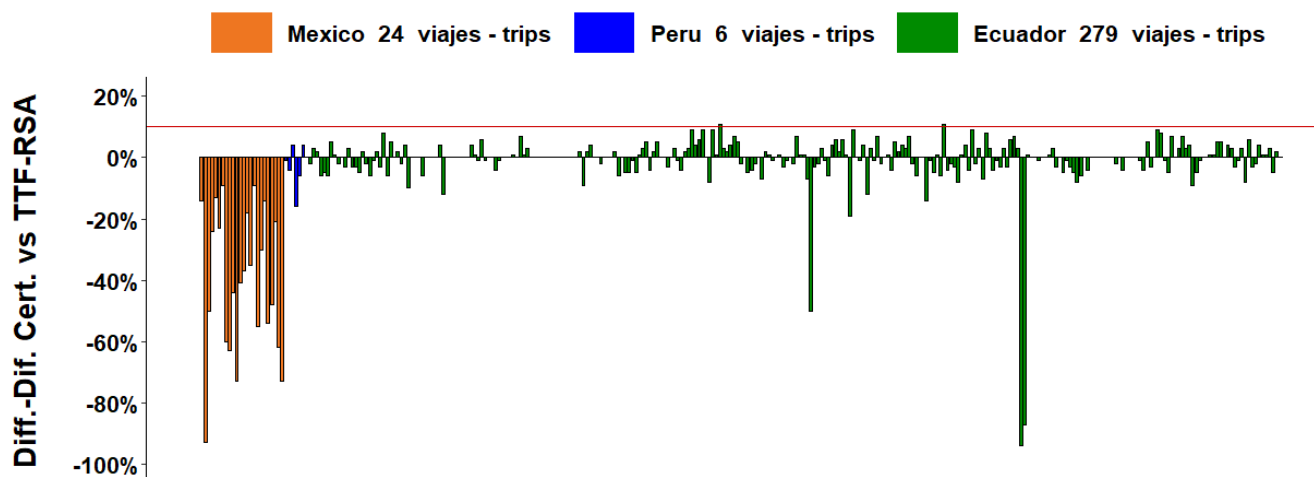

**TABLE 1.** Original and electronic copies TTFs received by the Secretariat, in accordance with paragraph 3.6 of the System for Tracking and Verifying Tuna, by national authority.

Trips <sup>2</sup>			% of originals and electronic copies received, reported by meeting
