Dr. Arnulfo Franco
Director
Inter-American Tropical Tuna Commission
La Jolla, California

Subject: Annual report on the implementation of C-11-02 by China for 2025

Pursuant to resolution C-11-02, CPCs shall annually inform the IATTC of the mitigation measures that their fishing vessels plan to employ in the implementation of this resolution, and shall provide available information regarding interactions with seabirds involving their fishing vessels.

Mitigation Measures

In accordance with *Notification on the Issuance of the Implementation Elements for the Eastern Pacific Tuna Fisheries* [Nongyuyuanhan (2024) No. 182], all Chinese longline vessels operating in the area north of 23°N and south of 30° S shall use at least two mitigation measures from equipping tori lines, night setting and weighted branch lines. We require our longline vessels to use tori lines and weighted branch lines when fishing in the area specified in C-11-02 Annex 1.

Interactions with Seabirds

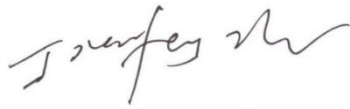

Twenty-seven observers were sent to our longline vessels operating in the EPO in 2025. According to the observer data, 12 seabirds were recorded during 2025.

Number	Date	Location	Species	Capture and release condition
1	1 June, 2025	30°36'S, 120°34'W	albatross	dead/dead
2	11 June, 2025	36°58'S, 122°03'W	albatross	dead/dead
3	24 June, 2025	38°00'S, 122°13'W	albatross	dead/dead
4	13 July, 2025	36°05'S,122°12'W	albatross	dead/dead
5	2 June, 2025	32°16'S, 135°36'W	Black-browed Albatross	dead/dead
6	3 June, 2025	33°37'S, 135°06'W	Black-browed Albatross	dead/dead
7	9 July, 2025	35°25'S, 116°12'W	Black-browed Albatross	dead/dead
8	9 August, 2025	27°03'S, 100°01'W	Black-footed albatross	dead/dead

9	29 September, 2025	28°33'S, 94°15'W	Laysan albatross	dead/dead
10	10 September, 2025	27°08'S, 94°51'W	Buller's Albatross	dead/dead
11	15 September, 2025	24°48'S, 90°57'W	Buller's Albatross	dead/dead
12	29 September, 2025	22°37'S, 87°59'W	Buller's Albatross	dead/dead

Regards,

Jiangfeng ZHU

Commissioner to the IATTC
