Dear Dr. Franco,

As per Resolution C-23-09 "Research for the Management of Dolphinfish (Dorado)," CPCs shall collect and submit to the IATTC biological, catch, and interaction data, as well as fishing effort data relating to dolphinfish from their fishing fleets whose catch of this species constitutes more than 5% of their entire annual catch.

After reviewing our 2025 data, no vessels in our fleet had a dolphinfish catch exceeding 5% of their total annual catch; therefore, the submission requirement under Resolution C-23-09 is not applicable to us for this reporting period.

Best regards,

Ming-Fen Wu
