# Opciones de ordenación para los atunes tropicales en el Océano Pacífico oriental

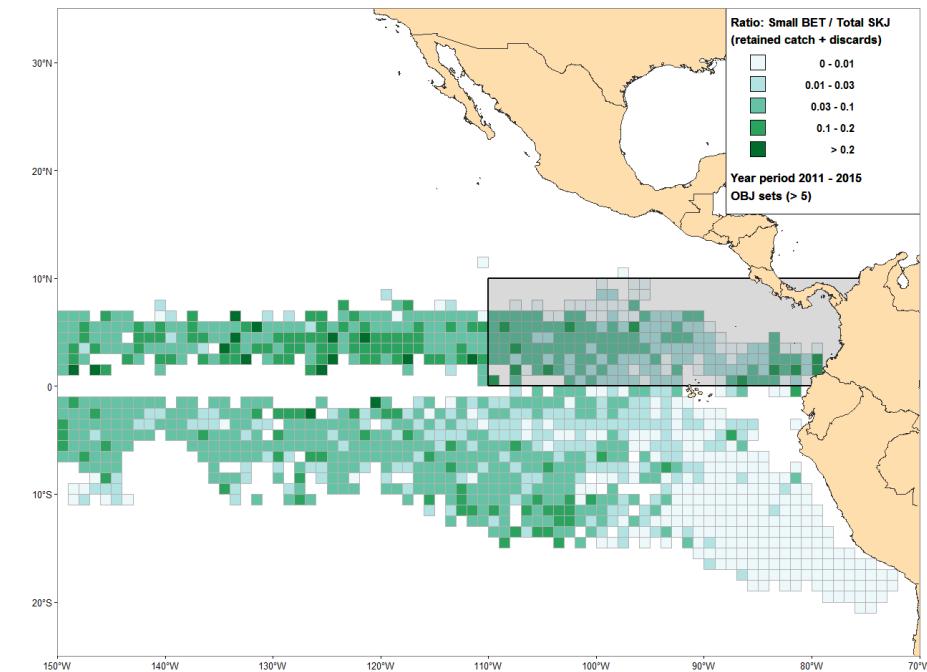

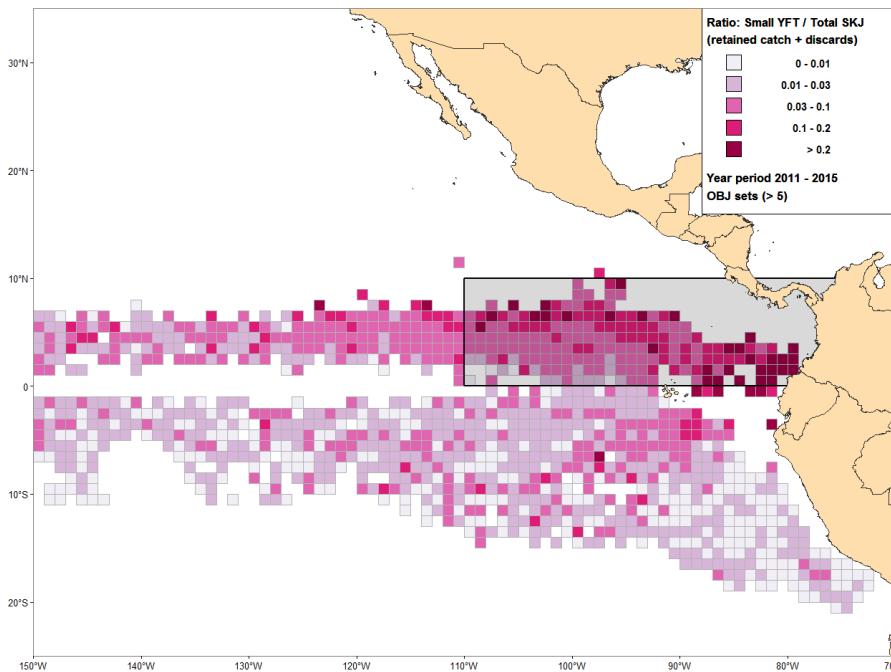

Management options for tropical  
tunas in the eastern Pacific Ocean

**TABLE 2.** Equivalent days of closure for each of the conservation measures. The capacity reduction and catch quota proposals are assumed to produce the required equivalent days of closure to compensate for the increased capacity.

Management measure	Equivalent days		
	YFT	BET	SKJ
25,000 m <sup>3</sup> capacity reduction	25	25	
Catch limits for bigeye (57,900 t) and yellowfin (232,800 t)	25	25	
In-season adjusted catch limits for bigeye and yellowfin	25	25	
Eliminate second closure period	0	2	-6
Eliminate first closure period	-2	-4	3
