## MEMORANDUM

4 May 2022

Re: Workshop on Compliance (*by videoconference*) – dates and provisional agenda

---

As discussed and agreed by the Committee for the Review of Implementation of Measures Adopted by the Commission, during its 12<sup>th</sup> meeting in August 2021, the Commission endorsed the convening of a **workshop on compliance** to explore how the Committee's procedures and outcomes might be strengthened, so as to ensure an improved compliance with the measures adopted by the Commission as well as a better performance in their implementation.

This workshop will be held **by videoconference on Wednesday 1 June and Thursday 2 June 2022**. These dates will allow for sufficient time before the annual meeting of the Compliance Committee and of the Commission for the Members to consider thoroughly the conclusions and recommendations of the workshop, as well as to prepare and submit to the Commission any concrete proposal that they would deem appropriate.

The informal nature and format of the workshop will make possible for **stakeholders** to have a wide and open **participation**, enriching thus the discussion and its results and also ensuring the representation of all societal components involved in the implementation of the measures adopted by the IATTC. It is expected that, in addition to other RFMOs and other relevant IGOs, several NGOs will participate as representatives of the civil society in general and also, more specifically, of the fisheries sector.

In order to facilitate its conduction and development, the workshop will be **co-chaired** by the Chair of the Compliance Committee, David Hogan, and the IATTC Director *ad interim*, Jean-François Pulvenis. They will prepare and circulate afterwards a report, summarizing the conclusions reached by the workshop as well as its recommendations, without prejudice to the position that each CPC would deem appropriate to take on these issues or to the proposals that they would decide to submit to the Commission for its consideration at its 100<sup>th</sup> meeting August 2022.
