

INTER-AMERICAN TROPICAL TUNA COMMISSION

87TH MEETING

**Lima (Peru)
14-18 July 2014**

PROPOSAL IATTC-87 K-1

SUBMITTED BY THE UNITED STATES

RESOLUTION C-14-XX

RESOLUTION (AMENDED) ON A REGIONAL VESSEL REGISTER

The Inter-American Tropical Tuna Commission (IATTC), gathered in Lima, Peru on the occasion of its 87th Meeting:

Affirming the importance of ensuring that all vessels fishing in the Antigua Convention Area comply with the conservation and management measures agreed by the Commission;

Reaffirming the need to have pertinent information relative to the operations of vessels fishing in the eastern Pacific Ocean (EPO);

Recalling that Article XII, paragraph 2 (k), of the Antigua Convention stipulates that the Director shall maintain the record of vessels fishing in the Convention Area based, *inter alia*, on the information provided pursuant to Annex 1 of the Convention;

Concerned that the current IATTC Regional Vessel Register includes fishing vessels not from Members and Co-operating non-Members of the Commission (CPCs) and the Commission cannot confirm whether these vessels are complying with relevant IATTC resolutions; and

Further recalling that the Commission has been taking various measures to prevent, deter and eliminate illegal, unreported and unregulated (IUU) fishing in the Convention Area,

Noting that large-scale fishing vessels are highly mobile and easily change fishing grounds from one ocean to another, and have high potential of operating in the Convention area without timely registration with the Commission,

Recalling that the FAO Council adopted on June 23, 2001 an International Plan of Action (IPOA) aiming to prevent, to deter and to eliminate illegal, unreported and unregulated fishing, that this plan stipulates that the regional fisheries management organization should take action to strengthen and develop innovative ways, in conformity with international law, to prevent, deter and eliminate IUU fishing and in particular to establish records of vessels authorized and records of vessels engaged in IUU fishing

Further noting that the International Maritime Organization's (IMO) Maritime Safety Committee, at its 92nd meeting, approved amendments to the IMO Ship Identification Number Scheme that remove the exclusion of vessels solely engaged in fishing and allow the its voluntary application to fishing vessels, which was adopted by IMO Assembly at its 28th meeting in November 2013,

Recognizing the utility and practicality of using IMO numbers as a unique vessel identifier (UVI) for fishing vessels,

Aware of the need to amend consequently its Resolution C-11-06 on a regional vessel register:

Agrees that:

1. The Director shall establish and maintain a record of vessels that have been authorized to fish in the Antigua Convention Area for species covered by the Convention, on the basis of the information detailed in paragraph 2. The record shall contain only vessels that fly the flags of CPCs.

¹ Effective 1 January 2016, flag CPC's shall ensure that all their fishing vessels authorized to fish in the Convention Area that are at least 100 gross tons (GT) or 100 gross registered tons (GRT) in size have an IMO or LR number issued. In assessing compliance with this requirement, the Commission shall take into account extraordinary circumstances in which a vessel owner is not able to obtain an IMO or LR number despite following the appropriate procedures. Flag CPCs shall report any such extraordinary situations in their annual reports.
